# Boots for DAFOs

October 04, 2018

There's no shortage of winter boots on the market, but finding a pair that fit well with AFOs can be a challenge. Here are a few tips and brand suggestions to help you through the process:

## What to look for

- Wide-opening features such as a side or rear zipper, or extended tongue
- Wide toe box
- Removable insole
- Adjustable straps for ease of donning

## Shopping tips

- You may want to shop without your child. Take the brace with you and try fitting it into the boot. Take the boots home for a relaxed fitting session, and return or exchange them if needed.
- For online shopping, consider ordering several brands/sizes, then return the boots that don't work out.

## AFO-friendly brands:

**Butler** (this is their orthotic-friendly Macaroni):

**Shoes for AFOs** (they have several styles of shoes and boots designed for AFO-wearers):

**MyMayu** (Trekker for toddlers; Wanderer for big kids):

[Koolway Sports](#) (designed for non-ambulatory AFO-wearers):

Other brands to consider:

- [Carter](#)
- [Crocs](#)
- [Hunter](#)
- [Kamik Kids](#)
- [Keen](#)
- [Lands' End](#)
- [Ozark Trail \(Walmart\)](#)
- [PLAE](#)
- [See Kai Run](#)
